

## Citizens To Discuss Edwards Water Area

Plans for the formation of an underground water district in the lower Edwards Reservoir area will be discussed in a district meeting of the South Texas Chamber of Commerce to be held at 2 p.m., Wednesday, Sept. 12, in the West Wing of the Municipal Auditorium in San Antonio.

An extensive dam-building program in the 15-county reservoir area for ground-water recharge and flood control is being projected by the regional chamber's Edwards Underground Water Conservation Committee, headed by Paul W. Jahn of New Braunfels.

Delegates from Devine, D'Hanis, Dilley, Floresville, Gonzales, Jourdanton, Karnes City, Kenedy, Lytle, Nixon, Pearsall, Pleasanton, Poth, Runge, San Antonio and Stockdale have been invited to attend the San Antonio meeting.

W. F. Guadian, member of the regional chamber's board of directors, is expected to head a delegation of local citizens who plan to attend the meeting.

Qualified ground-water geologists and hydrologists will appear on the program to discuss technical phases of the project and answer questions from the delegates.

The public is invited and everyone will be given an opportunity to state his views and offer suggestions.

Although water problems of the area are expected to demand most attention, the meeting will be open for discussions of other projects such as industrial development, highways and agriculture.

### Wildcats Slated In County

By Dick Tatum

Two more wildcats are slated for Medina County.

A 1,200-foot tester has been staked on the Sam Kennedy land by Paul G. Morrison of Uvalde. This well is located two miles south and east of Yancey and about one-quarter mile from the No. One Kennedy dry hole.

Seven miles west N. W. Devine, an 1,800-foot wildcat was located by Texas Gulf Coast Corp. on the Frank Silvey land.

Two new field locations have been staked in the Chicon Lake area. S. B. Messer, Corpus Christi, will drill south and east of Hondo.

Schimmel Drilling Co., et al., has staked a 1,200 foot well three miles north of Natalia on E. J. Dryden's land.

In the Taylor-Ina field, a 500-foot test well is to be drilled by Melvin L. Rossman, Bandera operator, on Edgar Steigler's land.

## Completions

The wildcat effort by Bates & Flato on the Henry G. Boehle land, seven miles S. E. Hondo was found to be dry at 1,100-foot total depth and was abandoned Aug. 26.

Bab Oil Co. had a similar experience in the Taylor-Ina field with their No. Six-B J. N. Wilson. It was drilled to 950-feet.

South States Oil & Gas Co. completed its No. Three J. N. Wilson for 11.06 bbls. daily or gravity 23.5 oil from the Navarro. Total depth is 924-feet.

Drilling progress: Bab Oil Co. is in process of completing wells No. Two and Three on J. N. Wilson's land. Both are 1,000-foot test efforts.

## Jim Duncan Leads

### Demos To State Convention

Medina county Democratic chairman Jim Duncan will lead a six man delegation from this state senatorial district to the Texas Democratic convention in Fort Worth's Will Rogers Coliseum Monday and Tuesday, Sept. 10 and 11.

Duncan, who attended the national convention of the Democrats in Chicago, says that the Texas convention will be one "of the people and for the people, not just one cliché."

He expects to see drastic changes made in Fort Worth concerning delegation ordinances. The Democrats have blamed the Republican forces for the rules that now govern the state party according to a letter sent out from the party headquarters in San Antonio.

"Governor control of the Democratic party won't be anymore," Duncan said, "the governor will be a figure head position."

A new era is coming for the Democratic party, Duncan said, as he reflected on the outcome of the Chicago convention, and said that the only thing that will beat the Democrats in November would be Stevenson himself.

The Fort Worth convention will receive TV coverage from as far as New York City, Duncan said. Making the trip by car with him will be Francis Richter and Riggs

## For Little Leagues

### New Baseball Field

Wayne Sigler, secretary of the National Farm Loan Association in Hondo, has been named head of the Hondo Junior and Senior Leagues for the 1956-57 year.

He replaces C. D. Sadler, who has held the position for the past two years. Deen Reed was named vice-president and W. S. Porter, secretary-treasurer for the third consecutive year.

Directors named are Bob Nations, C. D. Sadler, J. G. Barry, Dr. J. H. Jennings, S. H. Parsons and Bill Kelly.

Meeting Tuesday night, the group decided to move the baseball diamond to the Universal-

Rundle Corp. property, at Hondo Air Base. Extremely dusty conditions existed this year and it is hoped the move will allow a cleaner place for players as well as spectators.

Sigler says water will be available at the field and a good turf should be ready for next year's games. The group plans to hold a clinic for players, managers and umpires before the season starts.

Max Orta was named chairman of the Building Committee and will be in charge of moving and setting up the new diamond. "We need all the volunteer

help we can get," Orta said, "it's for a good cause."

Work will begin as soon as enough men are available.

Another advantage of the new diamond will be the unlimited parking space. It will be located on the same spot as the old diamond, which is no longer used. Universal-Rundle donated the property.

## Services Held For Pioneer Devine Man

Stephen M. Howard, 87 year-old pioneer settler of the Devine area, died at 7:30 a.m. Aug. 29, 1956, in a Corpus Christi hospital. Howard was born in Missouri June 30, 1869, and came to Texas in a wagon train when he was seven years of age.

Survivors include two sisters, Mrs. Lizzie Robertson of Black Creek, and Mrs. Edna Scott of San Antonio; step mother, Mrs. Maggie Howard, San Antonio; two step sisters, Gertrude Cule, San Antonio, and Barbara Cooper, Ingram; three sons, Clem S. of Morgan, Joe F. of Waco and daughters, Mrs. Joyce Mitchell of Devine, Mrs. Eulah Richardson of Corpus Christi, Mrs. Florence Davenport of Corpus Christi and Mrs. Ruth Gabbert of Freer.

He is also survived by 25 grandchildren.

Funeral services were held at 3 p.m. Aug. 30, at the Black Creek Baptist Church. Interment was in the Howard Cemetery at Black Creek, under the direction of Hurley Funeral Home.

### By Ralph Cole

Dove hunters are finding the season a little discouraging this year. Several men have told me that they have not had their usual luck at bagging their limit. According to the Texas Game and Fish Commission, field reports indicate that native birds which comprise the bulk of the present population have been cut down somewhat by lack of water and feed. They also say there will probably be concentrations of doves around tanks still containing water, especially if there is food nearby.

Here are a few precautions to follow while hunting dove — hunting is from 12 noon until sunset, daily and possession limits both call for ten doves, permission should be obtained from land owners, guns must be plugged to restrict shell content to three and hunting on public roads is unlawful.

Persons over 65 or under 17 do not need dove licenses and Texans who hunt dove in their own home county do not need a license.

# Farmer Has Plans

About two weeks ago an article on basic conservation planning of farms and ranches appeared in local newspapers. At that time the ways and means of getting a basic conservation plan on farms and ranches was explained.

This has caused several farmers and ranchers to take notice of the importance of planning for the future. One of the ranchers that has taken this seriously is Charles Baldus whose ranch is located approximately six miles northeast of Hondo.

Recently Baldus with the aid of a local SCS technician worked up a complete plan for his entire ranch. Both Baldus and the SCS technician agreed that this was a long-time plan and could not be completed in a short period of time. Therefore it was agreed that the most urgent problems on the ranch be dealt with first and the complete plan be carried to completion as it became feasible to the rancher.

In the case of the Baldus ranch it was decided that the cultivated land should have the first treatment as erosion was causing Baldus to lose much of his soil through both gully and sheet erosion. The following structural practices were planned and are being carried out on the cultivated land at the present time:

A diversion terrace was put at the top of the fields to carry outside water safely to a planned waterway on the side of the fields. This waterway will be designed and built to carry all outside water safely to the creek below without causing serious damage. Besides the waterway being properly designed to take care of the rainfall on a given watershed it will also be seeded or sodded to prevent erosion from occurring in the waterway.

Approximately five miles of level ridge type terraces have

been planned for the fields. These terraces are designed to take care of the water that falls between each terrace interval. Another important factor for his part of the country is that these terraces will have a full end block. This will enable the rancher to hold most of the water that falls over a given period of time. This can mean the difference between making a partial crop and not

making a crop at all as we have been experiencing in the past several years.

Baldus has taken a most important step in getting a complete plan worked up on his ranch. He now has a guide to follow through the years to come. Wise businessmen plan their future so how about letting the SCS help you work up a complete conservation plan for your farm or ranch.

A new city ordinance required that all dogs be vaccinated against rabies and that they "show proof to that effect when applying for a license in the form of a dog tag."

A fifteen inch rain had fallen at Castroville, causing all creeks and sloughs to overflow. While on an inspection trip to view road damage, Commissioner Herman Bippert of the Castroville precinct had the misfortune to, in some manner, fall into the flood waters of First Creek, just east of Castroville, and was drowned. His body was not recovered until several hours later, and had been washed some quarter of a mile down the stream.

## Former AB Personnel Hold Annual Reunion

Hondo becomes a dear spot to many people — many persons stationed at Hondo Air Base during the war still remember Hondo and all its citizens.  
One such group holds a reunion each year and calls it "Our Hondo Day."  
In a letter received from Emma S. Wambold, secretary of the group and living at Lake Geneva, Wis., the Herald finds that once each year, the group holds a get-together to bring them back to Hondo and its citizens. The men gather and talk about their flight patterns and the ladies chat about the homes and neighbors each had while at Hondo.  
The first "Hondo Day" meeting was held at Drayton Plains, Mich. was held at Drayton Plains, Mich., at John and Pauline Hodler's residence in 1951. The second meeting was at the same place but the third was held in Clio, Mich., with Mike and Dorothy Sorenson. The fourth meeting was held at Gaylord and Emma Wambold's at Lake Geneva, Wis., and the meeting this year, the fifth, was held in Manitowoc, Wis., at the home of Vic and Alice Kleppe. Alice is a Hondo girl and so far, the reunions have had two families with children born at Hondo. They were John Murdock and David Wambold.

Each year, the business meeting of the group is completed to take care of records and financial needs for the coming year and a meeting place for the next year is selected.  
Then, the group sits around and talks of memories and trips to all the towns around Hondo — Quibi, Castroville, San Antonio, Sabinal, Du nlay, D'Hanis, Uvalde—all nearby towns and villages. Then, the conversation drifts around to the "beloved Hondo people who put up with all the servicemen and families, and made our lives a bit happier away from home."  
"Sometimes we wonder how they ever put up with us all," Mrs. Wambold writes. "They didn't complain and we hope they miss us as much as we miss them!"

To date, the group has had representatives from Illinois, Wisconsin, Tennessee, Minnesota and Oklahoma at the meetings. They hope to have more in the future. Many addresses have been collected during the past five years and Mrs. Wambold says she would be glad to give anyone an address they may be seeking.

At the end of her letter, Mrs. Wambold presents Hondo with a poem. It is as follows:

For the friendship you've given,  
For the many thoughts we share,  
For the comfort too of knowing,  
When we needed you, you were there,  
For the many ways you helped us,  
There's no "Thank You" we could send,  
That could half express our feelings,  
Hondo you've always been the finest kind of friend!

EASY BUDGET PLAN!

Why spend the extra dollars for a higher priced car? Chevy's smart as they come with its stylish Body by Fisher—and it's a beautiful thing to handle!

In truth, there's been a quiet revolution in the automotive world. Higher priced cars used to provide much more in space, ride, and handling. But no longer. Chevy, in plain fact, offers all the luxury, all the performance, all the space and styling you've always hoped for—and better roadability, quicker response, more accurate control.

That's hard to believe—if you haven't driven a new Chevrolet. And if you haven't, you owe yourself a demonstration. We'll be happy to arrange it.

You get more car when you buy it... more dollars when you sell it! Chevy has the highest resale value of the leading low-priced models!

## 1956 Hondo Grads Choose Various Paths

Hondo High School's 1956 graduates have chosen many and varied ways for the coming year. The University of Texas will get the largest number of ex-Hondo High Schoolers. Irene Braden, Sandra Meyer, Jerry Muenink and Richard Schutte will register at the UT. Jerry and Richard will be out for football.

Texas A&M has enrolled Rudolph Grun, Donnie Neumann and Pete Angermiller, who is entering on a four year football scholarship. Durham Business College in San Antonio has attracted three young ladies from Hondo—Dorothy Blinks, Judy Breiten and Lucille Wilburn will attend Durham.

Draughon's Business College in San Antonio has drawn John Allen Brieten, June Moos and Kathy Hartman, while James Ham will enter Sul Ross. Able Becerra will leave Sept. 11 for the University of Corpus Christi.

Dwyane Hickman says he will start college at Mid-semester but hasn't made up his mind on the college as yet. Nelda Muenink and Fred Wright will attend SWTSTC.

Several Hondo exes plan to either work or be married within a short while, and two are already married. The two married exes are Mrs. Leo Dannemiller, the former Frances Zerr, and Joe Conley, who was married in June. Julianne Bendele will be married during the latter part of October.

Two Hondo graduates are now working at Hondo Air Base and plan to continue their work there. They are Jack Martine and Sherill Norwood. Willie Jean Saathoff plans to continue her work as a receptionist at the medical dispensary at Kelly AFB in San Antonio. Felix Hernandez is also working at Kelly. John Kelly has enlisted in the Air Force. Merlin Mumme plans to work for a while and then enlist in the Air Force.

Charlotte Swartzell, now doing general office work in San Antonio, plans to continue.

Mary Lou Ward hopes to do secretarial work. Celia Alcarez hopes to work in San Antonio as a clerk-typist while Georgiamae Karm is now working as a clerk-filest in San Antonio.

Leonard Saathoff will continue doing construction work and Arlen Graff has the desire to take a business course while working in a local grocery store. Two other 1956 graduates—Charlotte Cruseturner and Marian Beyer—hope to continue their present jobs. Charlotte is a long distance operator in San Antonio but wants to transfer to the commercial department. Marian is presently employed in a local store.

W. J. Schweers will continue working in a local service station while Betty Lou Winkler will continue her job with the bakery. Mary Lu Moos is working in San Antonio as a clerk-typist. These are the choices of Hondo's 1956 graduates.

## Miss McMeans Returns Home

By Mrs. R. R. Koch

Friday, Aug. 31, Miss Lula Lee McMeans returned from her summer vacation, which took her to Dallas, Fort Worth, Mesquite, New Orleans, La., and Nassau in the Bahamas. On her return from Nassau, she stopped in Houston and Sugarland for visits with relatives.

From Sugarland, she was called to Dallas because of serious illness of her brother-in-law, W. Ha. Kirk, who passed away Aug. 23. Miss McMeans remained a week with her sister before returning to LaCoste to resume her school duties Tuesday.

Except for the sad ending, Miss McMeans reports a very wonderful vacation. In New Orleans, she attended the national convention of the Delta Kappa Gamma Society. From New Orleans, she flew with 21 Texas members of Delta Kappa Gamma to Nassau. The storm "Betsy" was in the Atlantic while the group was in Nassau, but the only inconvenience they felt was to be forced from the hotel terrace into the dining room one evening for dinner because of a sudden blow of rain, and a trip to Paradise

Beach on Hog Island had to be postponed one day because the storm warnings were still up.

"We all knew," says Miss McMeans, "that our relatives and friends at home were concerned about our safety, and we wrote cards and letters, only to learn later that a few planes had been grounded two days."

The only mail sent out from the island is by air.

M&M L. M. Pittman and children, George, L. M. Jr., and Joyette Fay of Dunlay, and Mrs. George Kunze of here, spent last Tuesday and Wednesday at Kerrville, with relatives and friends.

M&M Daniel Andreas and children, Miss Ann Geiger, of San Mrs. Mary E. Geiger of here, visited in the home of M&M George Kunze Sunday.

Randolph Koch and Clemens Salzman visited at the Salzman Ranch Monday afternoon.

M&M William Greiner and sons, who have been residing here for the past year, moved to San Antonio Monday, where Mr. Greiner will teach school this year.

Carol Biediger spent the weekend at Natalia, with M&M Alex Hitzfelder and family.

T-Sgt. and Mrs. Benny Bristow and sons, David and Douglas, of Alexandria, Va., departed for their home last week, after a week's visit with his mother, Mrs. Edwin Rihn and family, of Spindletop.

Mrs. Florence Bendele of San Antonio, visited here Monday with M&M George Kunze and other friends.

Weekend visitors of M&M Wilfred Hutzler Sr., were M&M B. J. Wheelers and daughters, Carol Ann and Linda Lou, of San Antonio.

M&M Clyde Johnson and daughters, Carol Ann and Linda Lou, of San Antonio. M&M Clyde Johnson and daughter, Janet, of Hondo, visited M&M George Zuercher and son, Allen, Monday.

## Deadline For Gas Tax Set For Sept. 30

By C. B. Gaston

Reports have been received that there are still a large number of people in Medina County that have not submitted their applications for the Federal Gas Tax Refund. Remember that Sept. 30 is the last date for filing the applications.

Much of this county almost had a failure with their spring gardens due to not having water available for irrigation. Since some areas have had some good rains, it is very good planning if a fall garden is planted soon. Many of the vegetables will have time to mature before a killing frost is due.

Topcrop and Tendergreen varieties of bush beans will mature in about 50 days and will produce well in this section. It is not too late to plant squash, greens and leaf lettuce.

Some vegetables that will withstand a light frost are English peas, radishes, turnips, cabbage, beets, and carrots. These should be planted before Sept. 15. About the first part of October is a good time to plant onions, spinach and collards.

A revised publication, L - 258 "Winter Temporary Pastures", has been received. This leaflet provides the varieties of small grains recommended for this area and the rates of seeding. Fall planted legumes are also listed.

Another new publication, L-193 "Coastal Bermudagrass," has been received. There is much interest in this improved grass where irrigation can be provided. Recent tests with this grass show that 13 tons of hay per acre have been produced.

Last Spring, the county agent planted some test rows of clovers and legumes to observe their looked like all died during the dry summer, but after receiving the recent rains the hairy Peru-

# PAGING THE LADIES

Mr. and Mrs. Elroy Charles Britsch

## Harrison-Britsch Rites Read In Houston Church

Miss June Estelle Harrison became the bride of Elroy Charles Britsch in a double ring ceremony held at the Central Church of Christ, Houston, Aug. 18, 1956. The bride is the daughter of Mr. and Mrs. Virgil C. Harrison of Houston, and the groom is the son of Mr. and Mrs. Roland Britsch, Fort Worth.

Given in marriage by her father, the bride wore a gown of white tulle with an overlay of French lace and a train of the tight fitting bodice, with a Victorian collar and long tapering sleeves. The gored skirt accented with lace gathered at the waist flowing into the cathedral length train.

Tiers of illusion were held with a tulle covered with seed pearls and rhinestones. She wore an heirloom jowlie necklace that belonged to her grandmother. Her bouquet was a teardrop cascade design, using French lace as the background, forming the illusion and encircling white orchids etched with garlands of petals. Stephanotis blooms into larger clusters of bouvardia blooms and double faced white satin loveknott streamers cascading out of the off-centered base of the bouquet.

The church was decorated in rich simplicity of candelabras, adorned with Southern smilax garlands and magnolia arrangements. The smilax used was extended in full cluster garlands backgrounding the entire candelabra display. The use of wood-wardia fern trees extended the church decorations to extreme corners, by towering over the surrounding background to a half-circle to meet the wedding party.

Magnolia arrangements were used as accents and centered with a white candelabra.

Miss Barbara Jean Harrison, sister of the bride, was maid of honor and bridesmaids were Miss Hymonia Moran, Miss Carolyn Ann Reese, Mrs. Douglas Barton, Mrs. Bill Lackland, Miss Margaret Laren and Miss Mignonette Heath. Sue Ellen Tidwell served as flower girl.

Best man was Richard Lynch, Hondo, cousin to the groom. Groomsmen included A. M. Anderwald, Jay Pittman, Dalton Jansen, Allan Edworthy, Horace Britsch and Phillip Harrison. Ushers were Wesley Clark, G. J. Britsch and Harry L. Tidwell.

A medley of prelude music was sung by the accapella choir, directed by Mrs. J. G. Blasdel. They also furnished music during the ceremony.

The bride's mother wore an off-shoulder gown of brocade silk with matching accessories and a corsage of matching petals. The groom's mother chose a gown of

## Miss Ulbrich Honored At Shower

Miss Mary Francis Ulbrich, bride elect of Lt. Arthur G. Masena, USAF, was honored at a shower last week.

There were 87 guests registered in the guest book by Miss Hasey Eckhart. Cake was served by Miss Graydene Rogers and punch by Miss Barbara Brucks.

The serving table was laid with white maderia cloth and a centerpiece of white aster mums and yellow candles. Cake and punch was served.

Miss Ulbrich wore a white brocade with white metallic shoes and a red carnation corsage at her waist. Her mother chose brown shantung, accessories of brown lustre calf and a corsage of gold button mums. The groom's mother wore beige flowered print with avocado accessories and a corsage of gold button mums.

Hostesses for the evening were Mesdames Millie Eckhart, Everett Vincent, E. G. Rogers, Rolie Bless, George Brucks, Leo Dannemiller, Riggs Shepperd, L. E. Holloway, Thomas R. ## Services Held For Mrs. Jungman

Mrs. Bertha Jungman, 73, died suddenly at her home on Rt. 9, San Antonio, Sunday, Sept. 2, 1956, at 3 a.m. She had been in ill health for the past few years.

Born in Castroville, Nov. 6, 1882, she is survived by five children — Leo, Eugene Jr., Wilfred and Gertrude of Rt. 9, and Florentina Winters of Markham, Tex. She is also survived by 10 grand children, two brothers, Nick and Joe Hans of San Antonio, and three sisters, Mrs. Otella Beck, Mrs. Mary Halbardier and Mrs. Adella Koenig, all of Castroville.

She had been a member of the St. Louis Catholic Church in Castroville all of her life.

Services were held Tuesday morning, Sept. 4, and interment was in St. Louis Cemetery. Pallbearers were William Jungman, Gabe Hans, Louis Gross, Julius Jungman, A. O. Beck and Alfred Schott.

## Rainfall Not Based On Cycles

Predictions of rainfall cannot be made on the basis of weather cycles of "wet and dry years." Recent studies of 31 locations in the High and Rolling Plains of Texas show that cycles play little or no part in annual rainfall figures dating as far back as 89 years.

Dr. R. J. Hildreth and Gerald W. Thomas of the Texas Agricultural Experiment Station, who made the studies, state that an optimist can find traces of cycles at some locations, but no statistical significance of cycles is revealed in the records.

"Average or normal rainfall seldom occurs," Dr. Hildreth said. "The records indicate that farmers and ranchers in the High and Rolling Plains should figure that more years — 52 to 69 per cent — will be below average in rainfall than years above average."

Prolonged droughts have occurred on the High and Rolling Plains at least two or three times during the period weather records are available. The famous drought of the 1930's, which led to the dust bowl period, shows up in records at most locations. Another bad drought period occurred around 1917. At most locations the recent drought began in 1951 and is the longest and most severe on record. Records go back to 1866 at Abilene.

In most cases, it is not the first year of low rainfall that is disastrous, but the second, third or fourth years in a row of low rainfall. During the dust bowl period Amarillo had 8 consecutive years of below average rainfall. The study and publication of the results — "Farming and Ranching Risk as Influenced by Rainfall" — is the first of a planned series to include several other

More than 200 guests visited the new home during the afternoon.

## PERSONAL APPEARANCE

By Jerry June Berger

Several years ago hardly any of Hondo's young people felt that college was necessary — several falls past when only one or two students from a given graduating class would go on to school. Now it is gratifying to know that a full dozen 1956 Hondo High graduates are planning to enroll in college or universities in about two weeks.

NAOMI (MRS. FRITZ) LEINWEBER, secretary to the superintendent of schools, says this is the largest group yet and the dozen does not include several other students who will be going on to business school.

Last year's class valedictorian, ARLEN GRAFF, who could have had a scholarship to practically any school in the state, has had MRS. LEINWEBER mail a transcript of his high school record to Texas Lutheran College at Seguin. Headed for SWTC in San Marcos are FREDDIE WRIGHT and NELDA MUENNINK. ABEL BECERRA is planning to attend University of Corpus Christi and JAMES HAM has settled on Sul Ross after considering a number of schools.

Drawing the lion's share of the '56 graduates is the University of Texas, and since that was the school we chose quite a few years back, we'll have to admit that these four have made an excellent choice! They are: SANDRA MEYER, IRENE BRADEN, JERRY MUENNINK and RICHARD SCHULTE.

RUDOLF GRUN, DONNIE NEUMAN and PETE ANGERMILLER plan to enroll at A&M. CINDY DEPUY, who finished high school in El Paso last spring, is planning to attend SMU at Dallas.

Other college students from Hondo who will be leaving soon are: DORATHY LEINWEBER, MARILYN BENDELE and GAYLE KNIGHT all to San Marcos. MONETTE SCHWEERS, NELL NIXON, MARY JO MEYER and GLENN SCHWEERS; O. J. WILLIAMS and LLOYD MUENNINK back to University of Corpus Christi; PAUL POPE JR. to Southwestern University; and MONTE WILLIAMS to University of Texas.

We'd like to hear of others we've failed to name as this list was made just from inquiries about town.

Two Hondoans are entering me-

dical school this month. TONY BRUCKS has enrolled at Southwestern Medical in Dallas and CHARLES NEY in Galveston.

Attending Moye Military in Castroville this year are three elementary school youngsters BOBBY DEPUY, JOE FOLSE and BILLY LANDERS. BILLY's brother, BOBBY, has entered high school at Texas Military Institute in San Antonio. Another T. M. I. student who'll be making frequent visits to Hondo is PEPPY FINGER, son of a former Hondo teacher, MRS. PERRY FINGER, who has returned to the school system this year.

The school system in Hebbronville where the FINGERS have been living, has not smelled of roses for several years — we noticed a recent article in a daily paper stating that six of the seven school board members in the town resigned — so they thought it desirable to move PERRY from the system for his high school work. A very popular teacher when she was in Hondo previously, MRS. FINGER is a welcome addition to the third grade staff.

On down to kindergarten level, MISS WILLIE FLY reports that she has one of her largest classes of youngsters this year. At present she has eight boys and eight girls at her Jack and Jill School and that even division is in itself unusual. Part of last year she had just one little girl with about ten little boys and other years girls have been in the majority.

## HOW MUCH SHALL I SAY?

In a classified ad say as much as is necessary to completely describe what you are offering of goods or services, little more. Be brief, concise, complete. Tell all you would like to know if you were the prospect.

Facts are what count in a classified ad. Superlatives are to be avoided. Readers of classified pages are looking for something. If you have it and your copy adequately describes it, leaves no question in prospect's mind, you will get action... a sale if terms are right.

A buyer looking for something in classified pages will read most of the ads to find it. The judicious use of display type, a little white space at top and bottom, the boxed ad - as in display ads on these pages - command attention, adding to the pulling power.

Say what is essential in your ad; use display space where competitive advertising dictates the need.

THANKS PROF. W. N. SAATHOFF  
FOR THE FOLLOWING STORY  
OF A PIONEER

**HENRY BRUCKS TEXAS PIONEER**  
Henry Brucks came to Texas in 1846. He was not only a pioneer but a frontiersman as well. He was born Feb. 16, 1838, in Westphalen of the Rhine Germany. As members of the Castro Colony, his parents and a brother, Bernhard, came to Texas in 1846. They embarked on the ship Medina, sailed across the unknown Atlantic and made their first landing at Galveston, Texas. The captain had planned to land at Port Lavaca, but due to a strong norther (storm) he lost his bearings and the vessel was forced to land at Corpus Christi. The colonists endured many hardships on this new route to their destination — Castroville. When they arrived, they found other colonists who preceded them, and began establishment of permanent abodes and the first settlement of Castroville, located on the Medina River, twenty-five miles west of San Antonio. The family stayed about a month in Castroville when they and others went about ten miles further west and started a settlement on the Quili Creek near the lake which was donated to the colonists for their use, and is so recorded in the records of Medina County. Quili is an Indian word meaning eagle. It had a white neck and white at the base of its tail, and were very prolific and numerous at that time, but are almost extinct now.

Castro had planned well for the settlement. Each settler received a town lot for a residence besides a regular grant of farming land, usually about sixty acres. Too much land for one "bauer." Most of the farming was done with a hoe. An isolated village in the wilderness, with no roads to it, it was a toilsome journey for the women and children. The heavily loaded carts and wagons moved slowly and tediously over country to their "promised land." The trip was started on the 2nd day of March (Texas Independence Day) and reached their destination at sunset — a slow and weary journey.

The lots in the village were numbered. John B. Brucks, the father of the family, succeeded to find his stake on a lot near the lake and camped the first night on his possessions. Not all succeeded in finding their stake, hence they pitched camp as convenience suited and built fires along the creek to make the place bright and cheerful. Soon all the settlers located their possessions and pitched their tents. Some of the settlers moved a mile below the lake and called the place "Unterdorf." Among the settlers there was a man named Boinkhoff, wife, married son and wife, a son 10 years old and a grandson 10, all living in a small tent. In the stillness of the night of the first week, the lower settlement was attacked by the Indians. A courier brought the news to the upper settlement, and informed Mr. Brucks that the Indians were killing the settlers. He aroused the settlers and organized a troop of the ex-soldiers of the old country and prepared to fight the redskins. Those not trained as soldiers were left to protect the women and children. A man named Deides was detailed to ring a bell which Mr. Brucks had bought on an auction on the ship.

It is true that the cost of some individual prescriptions is greater than it used to be. It is also a statistical fact that you are spending a less percentage of your income for medicines than you used to.

The millions of dollars being spent annually for medical research has developed medicines that are not only saving more lives, but are also helping you to get better much more quickly. You need less medicines per illness than you used to. Modern prescriptions are wonderful, and we carefully price each one to give you honest value.

\*Quotation by Josiah Wedgewood  
(1730-1795)

Mr. Brucks prepared his men for battle, made his men fire their guns and reload to be sure of firing. March was begun toward the scene of trouble, on the way, they heard a voice issuing from the darkness asking "Is Mr. Brucks in the crowd?" Please, come and help me pull these sticks out of my head". He found Mr. Boinkhoff with 2 arrows in his forehead. The arrows were removed and he went to the upper settlement. Brucks and his men made further investigation and found two women killed and scalped. They heard another voice issuing from the darkness about 30 steps away calling Mr. Brucks and approaching the place, they found Mr. Boinkhoff mortally wounded, shot through the abdomen. He died before day-break. He had told Brucks that they had heard what they thought were wolves. He gave it no thought, then a shot was fired which fatally wounded him. He had no knowledge of the Indian, but thought the settlers were shooting turkeys. He sent his wife to tell the hunters to cease killing turkeys. She met by the Indians who began to lance her, she screamed and tried to escape but soon fell and expired. The old man quit his tent and took shelter behind a tree. He was hit by 2 arrows in his head (mentioned before). Boinkhoff saw his wife and mother killed by the Indians.

After slaying the women, the Indians began plundering the tent. There was a large box brought from Germany which contained clothing and guns. They took the clothes but left the guns because of the alarm given out the redskins retreated hurriedly, taking 2 boys with them. The boys called for help, the father heard them. The call for help ceased. Next day the body of the boy was found, killed by the Indian, and found inside the yard of Lienber Boehle. The report was made to Castroville, men came and followed the Indians but did not find the enemy. Six months later came the news that the other boy captured was in Fredericksburg, left there by an Indian agent. Boinkhoff returned the boy home afoot. Mr. Brucks knew the boy but he would not say much of his captivity, except the Indians traveled 3 days before they made a halt, which was on the South Llano. Here the boy was given a coat of paint, which he washed off, and was whipped by the squaws for it. After the first raid by the Indians, the settler, built a large brush fence near the lake for safety. Sickness, fever, broke out, Boinkhoff and son died.

Later the Indians captured a boy named Heinrich Schneider. He and Baptist Nussbaum were herding cattle to keep them out of the fields. Nothing was ever heard of Heinrich.

In 1847 Brucks went out cow hunting beyond Schorobiny's home. While viewing the country from the hill he saw six Indians standing by their horses, they mounted and gave Brucks the scare of his life across the

Schorobiny place into the Quili Creek. They fired their guns and abandoned the chase. His horse was wounded mortally, but Henry kept up his speed and made the settlement. Nothing more was seen of the Indians.

After Maier was killed and Mrs. Schorobiny (brother and sister) was wounded, an Indian was captured further west, he was brought to Quili to be identified as one who attacked Mrs. Schorobiny. She could not. She said "All Indians look alike to me". There was a barroom near by. There they took the Indian, after much drinking they killed the red man. The bar was across the street from Bohl's shop.

On March 14, 1867, the Indians killed Harm Gerdes, about 2 and a half miles east of Quili. Henry Brucks was a guard for the US mail from Ft. Clark to Ft. Stockton. The Indians plundered the Ft. Clark place. The men went into camp on Live Oak Creek, it was a ruse, to entice the Indians. The Indians came from all directions. There were but ten men who gave the Indians fight, but finally had to retreat. A Mexican saw the Indians rob the mail and burn the stage. Brucks' party met a Mexican on Devil's River who advised not to follow the Indians as they would all be killed. But Brucks' party did not heed and went on. The Mexican went too but finally said "I can't go. We'll all be killed." At camp Hutson, a halt was made. Mr. Brucks heard someone talking English; they were Cook's men, from Ft. Clark. They told of the fight they had with the Indians. Brucks' men now went to Lancaster. At 12 at night they saw fires, and were sure there were Indians but saw none. They stopped at Pecos Springs. The Indians thought the stage was coming and laid to capture it but finally abandoned it. The Indians went on down to Devil's River, and from there to the head of the Nueces and Frio Rivers. These were the Indians that killed Harm Gerdes.

Brucks was a member of Capt. Richard's Company and did much frontier work. The bell Brucks brought to Quili was given to the Catholic Church at D'Hanis, in honor of Mr. Brucks' sister, Mrs. Nick Ney. This was the first bell brought to this section of the country.

## Sly Old Fox Escapes; Killed Upon Return

By Mrs. Harrison Wilson

Mrs. Amanda Ward had some excitement around her house one day last week. One morning, she saw a fox go in her garage. By the time she got out there with a gun, it was gone.

Later that day, as she was watering her yard, she found it in a flower bed. It ran under the house. She went inside to get her gun, then noticed it by her back steps — this time, she killed it.

M&M Willis Boone and daughter were guests of his sister, Mrs. Fielding Wiemers, and family last week. Johnnie, Jo Ann and Ronnie Heiligman, Lynn Ray Faseler, Donald Ray Zuckro and Don and Jackie McAnelly helped Wayne Wiemers celebrate his seventh birthday last week. After an afternoon of games, the gifts were opened. Ice cream and birthday cake was served to the little guests and their mothers.

Mrs. Marcus Montgomery and boys of Jourdan, spent Sunday with Mrs. Amanda Ward.

M&M Ray Ward and family of San Antonio, visited Mrs. Amanda Ward last week. The children, Lloyd and Amy Sue, stayed over for several days with their grandmother.

Mrs. Bill Koehner and son of Houston, spent last week with her parents, M&M A. J. Hardt. While here, the Hardts took them to Cotulla to see the Lloyd Hardts. M&M Lloyd Hardt and family are living in Cotulla, where he will teach Vocational Agriculture.

M&M Ross Ward of San Marcos, spent the Labor Day weekend with M&M Lucian Ward.

Peggy Ward, daughter of M&M Lucian Ward, is going to school in Devine this year. This is Peggy's senior year.

M&M George Heiligman went to Mathis Sunday afternoon, to take the grandchildren, Bobb and Jerry Burk, home. The children have been with them for the past several weeks while their daddy was in the hospital.

Guests of Mrs. L. F. Faseler over the weekend were Mrs. Roy Brantley and son, M&M Glen Faseler and family, Paul Spellman and Lawrence, Mrs. Hughes and children and Mrs. John Abby of San Antonio, M&M Robert Faseler and family of Hondo, M&M Walter Faseler and family of Pasadena, M&M Harry Meadows and family of San Antonio, M&M Homer Faseler and family of Raymondville, M&M Charles Wegner of Austin, M&M Jimmie Duderstadt of Bozeman, Montana, and M&M Tom Duderstadt.

The Faseler family gathered from everywhere Sunday for a family reunion at the Methodist Recreation Building. After church services, the families had a basket picnic at noon and visited in the afternoon. Those attending from out of town were M&M Fred Allen Jr. of Campbellton, M&M Wayne McAnelly and boys of San Antonio, Mrs. Fritz Oefinger and family, Melvin and Otis Erck and families, the Emil Faseler of Potest, M&M Glen Faseler and family, M&M Walter Faseler and family, the Robert Faseler of Hondo, the Charles Wegners of Austin, Walter Faseler of Pasadena, the Harry Meadows and Mrs. Roy Brantley and son.

Mrs. Herman Faseler is spending a few days in Hondo with Mrs. Henry Kueck.

M&M Fielding Wiemers and boys spent last Saturday in San Antonio with his mother, Mrs. Marie Wiemers. They reported Mrs. D. A. Wright is doing nicely after surgery in a San Antonio hospital.

Mrs. Wayne McAnelly and boys spent the week with her parents, the E. T. Wiemers.

Mrs. G. C. Housworth and M&M Jack Lewis Housworth and son of Houston, spent the weekend with Mrs. E. E. Wilson. The rest of the family gathered at her home Saturday night for a covered dish supper. Those attending were M&M Roy Wilson and family, M&M Albert Wilson and family

#### It's Bonanza Time at Buick Dealers!

FIRST TIME you take the measure of a '56 Buick CENTURY, you'll know what the sports-car folks mean when they say the CENTURY is a great performer.

The getaway is right away—the road feel superb—the handling a joy. For this is Buick's most spirited and spectacular car.

It has the highest power-per-pound ratio in all Buick history.

It rides on a chassis compact to the last ounce and inch.

It takes to movement like a prima

ballerina—nimble to the nth degree.

And when you press the pedal, you get the response of Buick's mightiest V8 engine and the silk-smooth wizardry of an advanced new Variable Pitch Dynaflo\* that lets you switch the pitch for emergency acceleration that's the most satisfying safety measure in the land today.

As we said, the name is CENTURY.

And, as you'll discover, the price is a cinch. For the CENTURY is just a cut above Buick's lowest-price SPECIAL Series—and that's just a cut above the well-known smaller cars.

So you really ought to try a '56 CENTURY . . .

Especially now, while your present car is at its peak worth . . .

Especially now, at today's Buick prices (who knows when they'll ever be as low again!) . . .

And especially now, with Buick so solidly in the Top 3 of America's best sellers—and that kind of sales volume permitting us to make you an even finer trade-in allowance.

Drop in on us this week—today would be even better!—and see what a buy you can make right now on the best Buick yet.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

#### Seco Discovers Scientist Are Working On Airplane

Editor's note: The Seco Philosopher on his Johnson grass farm may be going out of his way to find something to worry about, his letter this week indicates.

Dear editor:

According to an article I read in yesterday's paper, well it wasn't yesterday's paper according to the date, which was about a week old, but any paper I read yesterday, if I haven't seen it before, is yesterday's paper as far as I'm concerned, scientists are predicting they'll have an atom-powered airplane ready to fly in a couple of years.

They said they based this on the fact the atom-powered submarine, which has now traveled 50,000 miles without refueling, is such a great success.

And furthermore, they said, after the atom-powered airplane will come atom-powered automobiles.

Now I don't know what this will do to filling station operators, there won't be much for them to do if they can fill up your car with atomic energy and you won't have to come back until fifty or seventy-five thousand miles later, sounds like the hours would be fine though the pay might be low, but I guess as a political problem and let Sec. Benson worry about them.

However, what's worrying me is that science isn't going to be satisfied to leave well enough alone and after they get airplanes and cars and trains running indefinitely on atom power, some smart alec will turn his efforts to tractors.

Now a tractor that'd run almost forever with one handful of atom power sound all right for the man who just can't seem to get enough plowing, but I'd like to point out there are some farmers who look on a stalled tractor as one of the handiest things you can have on a farm. You take a man who's powered with old-fashioned food three times a day and put him on an atom-powered tractor that'll run forever on one dose, and you can begin to see that science is no un-mixed blessing.

I don't want to stand in the way of progress, and while I don't believe science can ever invent a machine so efficient I'd want to run it all the time, you can see that this idea of an endlessly running tractor operated by a tiring man needs some careful thought before it's brought out. It's a question of who's going to be in charge, a man or his tractor?

Yours faithfully,  
J. A.

#### SA Sale Set For Sept. 13

The Texas Hereford Association today named the Sales Committee in charge of the Hereford Stocker-Feeder Sale, scheduled for Sept. 13 at Union Stock Yards, San Antonio.

This Committee is headed by R. J. Roeder Jr., first vice-president, and also includes H. A. Fitzhugh, member of the Executive Committee of San Antonio; Ed C. Gardner, Director of Carrizo Springs; James Grote, Director of Boerne; Frank E. Jordan, member of Mason; and Henry Elder, secretary-manager of Fort Worth.

Purpose of these special stocker-feeder sales is to provide a better market for the better quality Hereford stockers and feeders, especially for the intermediate and smaller producer. It will give producers the opportunity to display and sell their calves in uniform lots, shaped-up and at a time and place where numbers will enable the rancher and other buyers to get their requirements.

This situation should make cattle sell better than they would if they were offered alone and not at the same time that other similar good calves are to be sold. Sellers have been highly pleased with prices received in similar sales sponsored by the Texas Hereford Association.

Cattle should be shipped to arrive at the Yards on Wednesday afternoon or night, or Thursday morning by 5 a.m. in order to be sorted for the judging. The judging will begin at 8 a.m. Thursday. The judging will be completed before the market opens at 10 a.m. on this day. The Texas Hereford Association has selected practicable cattlemen to do the judging. Consignors to this sale do not have to be members of the Texas

# Owls To Open Tonight Against Nixon Bobcats

By Connie Eckard

Head coach Max Carver will unveil his 1956 Hondo Owls on Barry Field Friday night as the blue and white open the season against the Nixon Bobcats at 8 p.m.

The Owls will have 18 lettermen returning to the gridiron from last fall's club that advanced to the regional playoff before being stopped by penetrations. Eight of these players have two football letters to their credit.

Running from a straight T with a series of belly plays, the Owls will be guided by the passing of quarterback Alvin Hartman. Carver calls Hartman one of the finest passers that it has ever been his privilege to coach.

In contrast, Carver lists as one of his major weaknesses his ends. He lacks a big man with big hands to haul in the long throws that Hartman is capable of making.

Nixon worked their way into the regional playoffs last year in class B football, Carver said.

Power for the Owls Friday night will be supplied by full-back Johnny Windrow and Butch Wools running from the right half slot. Both were all-district players last year. Toting the pigskin from left half will be Billy Potsovitich. Hartman will round out the starting backfield.

Opening holes for the backs, the massive Owl line will see two-year lettermen Clyde Bohmfalk and Billy Neuman at ends, reaching for Hartman's passes.

Tackle positions will be filled by Gary Schweers and Tommy Koch with Charles Tilley and Billy Reus handling the guard duties. Jug Wiemers will be snapping the ball from the center of the line.

Despite 18 returning lettermen, Carver says he has reserve trouble. Nine of his starters are seniors and seven on the second string are completing their eligibility this fall.

After going to the state quarter-finals in 1954 and to the regional playoffs last year, Carver says he will be lucky to get out of district 28A this fall. Pearsall will be the team to beat as he considers them to have one of the finest club balls in the district.

Assisting Carver in his coaching chores, James McDaniel, Bob Nations and Bob Mosley will all be working to get the utmost out of the Hondo gridsters.

Owl line-up includes Alvin Hartman, Butch Wools, Johnny Windrow, Ray Highsmith, Billy Potsovitich, Louis Lasiter, Sidney Mercer, Johnny Meyer, Jimmy Leazenby, Bobby Swartzell and Louis Schmitz in the backfield.

Ends, Butch Smith, Clyde Bohmfalk, Billy Neuman, Thomas Schulte, John Korbell and Jimmy Timmerman; Tackles, Gary Schweers, Tommy Koch, Parker Meyer and Wayne Balzen.

Guards, Charles Tilley, Bobby Ward, Bobby Taylor, Joe Robert Torres and Billy Reus; Center, Jug Wiemers, John Sheppard and Bernie Zerr.

## AB Golf Tournament Is Termed Successful

By Dr. John H. Jennings

A large turnout of 107 golfers making up 26 teams combined to make the first HAB Sweepstakes a definite success.

One of the highlights of the day was a hole-in-one on the 135-yard No. Eight hole by Gene Kincaid of Uvalde. It was the first one ever registered on the local course. The shot by Kincaid also helped vault his team into a first place tie.

It is interesting to note that of the 12 winners of the first, second and third place teams eight are from Hondo, two from Uvalde, one from Del Rio and one from Carrizo Springs.

Listed below are the results. Each player was placed on a team with the number of points that would be his average game. Points are made as follows: Hole-in-one, 5 Eagle, 4; Birdie, 3; Par 2; and Bogie, 1.

First place was good for \$21.20 to each player while each member of the third place team collected \$10.60.

### Owls Open '56 Season

The Hondo Owls start another campaign on beautiful Barry Field Friday night against Nixon, and from what we have seen of the Owls it should be a fine season, with the possibility of a most memorable one. You former students who are away from home will want to check the schedule and plan to get home to see this 1956 Owl edition. If they play up to their potential, they could make you mighty proud. It is definitely premature, but the Pearsall at Hondo game on Nov. 9 shapes up to be a real district battle.

### Results of Scrimmage

Last Saturday night, the Owls and Northside of San Antonio had themselves a real old fashioned scrimmage. The boys must have learned a lot from it. . . it lasted a good active two and a half hours.

The Coaches had a number of things marked down that they did not like. . . and they will be working to get the boys to improve. . . but from our standpoint things looked fairly encouraging.

### Backfield Rundown

QB Alvin Hartman, at 195 lbs., looked very sharp with his passing, ball handling — and get this — his running. Coach Carver has the split in action this year, and Alvin will be allowed to keep the defense honest by either handing off, keeping or passing. He got off some fine runs Saturday night and should improve when he learns how much you can get undressed by running straight up.

HB Butch Wools at 175 lbs, also showed his power. . . he runs as a power runner should and his value to the Owls is immense. With some fine blocking up front, the Little Bull should be very hard to bring down indeed.

FB Johnny Windrow at 180 lbs. is a converted guard and he has taken to his new assignment like a duck takes to water. Johnny was a very solid all-district guard last year and it is asking a lot of him to learn a new position. . . but Windrow is a proud member in the annals of Hondo Owl football history. . . and Johnny can certainly take his rightful place in the clan. I thought he ran with lots of power Saturday night. You might confuse him with Butch Wools which is good confusion. . . if you are on our side.

The other HB spot provides the interest now. Ray Highsmith at 140 lbs. has been bothered with a pulled muscle and his best has not been shown, but we look for him to put in a fine year. Billy Potsovitich at 150 lbs. earned a lot of respect with his play Saturday. He may be the break-away runner the Owls need. He looked very good we thought and it is entirely possible that he could earn a starting position.

Louis Lasiter, about 145 lbs., is the other HB prospect and he seems determined to see all the game action he can.

Little 135 lb. Johnny Meyer is the QB behind Hartman and he seemed to run his unit very well against Northside. Another out-

standing boy Saturday was Sidney Mercer, 175 lbs. He ran from FB and I am sure it was the best running of his young career. If he can continue that type of spirit he will do himself proud and should do the Owls a lot of good. Pardon the continued comparison. . . but he ran as good as Wools on occasion. Mercer and Potsovitich were the most encouraging things to happen Saturday night.

### The Line

We hate to cut discussion short on the Owl line but space necessitates it. The line will be heavy from tackle to tackle and they should be very salty, anchored by two very fine tackles with experience in 175 lbs. Tommie Koch and 180 lbs. Gary Schweers. Charles Tilley at about 165 lbs. is a steady regular guard and will be in on lots of tackles.

The left guard spot is up for grabs and between four boys should find a keeper in 190 lb. Bobby Ward, 155 lb. Reus, 150 lb. Bobby Taylor or 170 lb. John Torres. Big Jug Wiemers at 195 lbs. should handle the center situation in excellent fashion. The experienced Billy Joe Neuman, 155 lbs., will care for one end. He also does the punting. . . Billy may be held out of defensive action if the other boys come through. The other end finds several boys with a chance here. . . with Clyde Bohmfalk, 165 lbs., Butch Smith, 160 lbs., Tommie Korbell, 145 lbs., and newcomer, 175 lb. Thomas Schulte as leading candidates.

It should all add up to an interesting season and one we hope will carry the boys a long way, and with the proper desire it could be a nice journey.

### Hollmig-Hartung Star

Stan Hollmig has continued his fine season ever since his shift to Nashville. He was doing very good with the S. A. Missions but has done even better with the VOLES.

He leads the club in hitting with a .351 mark in 110 times at bat, has 39 hits, 13 runs, 26 RBIs (very potent indeed) and three home runs. But in spite of Stan's boost to Nashville it does not appear that they will make the play-offs.

Big Clint Hartung continues to be plenty of a ball player for the Sinton Oilers. Clint hit a two run homer in the ninth inning the other night against Alpine to tie the score at 4-4 in the National Semi-Pro tournament in Wichita, Kansas. This set the stage for Sinton to win the ball game 5 to 4.

## PRAYER FOR RAIN

O GOD, heavenly Father, who by thy Son Jesus Christ has promised to all those who seek thy Kingdom, and the righteousness thereof, all things necessary to their bodily sustenance; Send us, we beseech thee, we pray thee, in this necessity, such moderate rain and showers, that we may receive the fruits of the earth to our comfort, and thy Honour; through Jesus Christ, our Lord. Amen. Amen.

## PRAYER IN TIME OF DEARTH AND FAMINE

O GOD, heavenly Father, whose gift it is that the rain doth fall, and the earth bring forth her increase; BEHOLD, we beseech thee, the afflictions of thy people; increase the fruits of the earth by thy heavenly benediction; and grant that the scarcity and dearth, which we now most justly suffer for our sins, may, through thy goodness, be mercifully turned into plenty; for the love of Jesus Christ our Lord, to whom, with thee and the Holy Ghost, be all honour and glory, now and for ever. Amen. So mote it be. Amen.

O GOD, merciful and compassionate, who art ever ready to hear the prayers of those who put their trust in thee; Graciously hearken to us who call upon thee, and grant us thy help in this our need, through Jesus Christ our Lord. Amen. Amen.

## PRAYER FOR FRUITFUL SEASONS

ALMIGHTY GOD, who has blessed the earth that it should be fruitful and bring forth whatsoever needful for the life of man, and hast commanded us to work with quietness, and eat our own bread; Bless the labours of the husbandman, and grant such seasonable weather that we may gather in the fruits of the earth, and ever rejoice in thy goodness, to the praise of thy Holy Name; through Jesus Christ our Lord. Amen."

Our prayers be with thee! Arthur H. Jungman and J. Frank Jungman.
